PROFESSIONAL SUMMARY

Results-oriented and detail-driven Web Developer with a proven track record in consulting with clients to develop and document website requirements. Expertise in creating and optimizing website content using a variety of graphics, database, animation, and other software. Proficient in web development languages such as HTML, CSS, JavaScript, PHP, and many more. Strong leadership skills in coordinating multidisciplinary teams for website development projects. My primary career goal is to join a team where I can make meaningful contributions and continually enhance my skills to drive the organization's success.

WORK EXPERIENCE

Web Developer (Remote)   **August 2023 - Present**
Dave Solutions, Toronto, Ontario
- Collaborated with cross-functional teams to gather requirements and understand project objectives, ensuring alignment with business goals.
- Understanding and experience working with the ASP.NET, including knowledge of its architecture and components.
- Designed and implemented user interfaces, prioritizing aesthetics, and functionality to enhance the overall user experience.
- Developed and maintained responsive web applications, emphasizing compatibility across various platforms.
- Conducted thorough testing to identify areas for improvement, ensuring optimal performance and user satisfaction.
- Stayed updated with the latest web development trends and technologies, implementing best practices to enhance project outcomes.

 Technologies used: PHP, Angular, MySQL, ASP.Net, XAMPP environment, Apache, Agile Methodology, Visual Studio Code

Full Stack Developer/ Designer   **March 2018- March 2021**
Clickaway IT Solutions, Ahmedabad, India
- Designed and developed web applications using PHP in the XAMPP environment.
- Utilized the Bootstrap framework, media queries to create responsive and visually appealing user interfaces.
- Embraced Agile methodologies to deliver incremental software updates, ensuring flexibility and responsiveness to changing project requirements.
- Implemented version control and collaboration using Git, managing code repositories, and facilitating team development.
- Ensured the websites are responsive and mobile-friendly to optimize web performance on various devices and screen sizes.
- Combined multiple CSS or JavaScript files into a single file to reduce the number of HTTP requests (external).
- Web development using ASP.NET for building dynamic, data-driven web applications.
- Collaborated with cross-functional teams to gather and refine project requirements, ensuring alignment with business objectives.
- Regularly monitored and maintained deployed applications, addressing bugs, and applying updates as necessary.

 Technologies used: HTML, PHP, CSS, JavaScript, ASP.Net, Angular, Bootstrap, MySQL, Git, Eclipse, Chrome, Agile Methodology

ACADEMIC EXPERIENCE/ INTERNSHIP

School Management System, Sheridan College, ON   **May 2022 – August 2022**
- Developed an application to manage student information.
- Constructed visual layouts using JavaFX SceneBuilder.
- Performed all CRUD operations i.e., Create, Update, Read and Delete.
- Stored the data using Dynamic Array to allocate memory during run time.
- Maintained overall student data into different pages and keep a record to conveniently access.

Technologies used: Java, JavaFX, REST API, HTML, CSS, NetBeans IDE

<u>Welfare Foundation</u>, LJ Polytechnic, India   **March 2018-2019**
- Created well-structured content using HTML5, PHP, and JavaScript.
- Styled layouts using CSS including frameworks like Bootstrap.
- Utilized Git for version control and managed repositories on GitHub.
- Developed website that adjusts to different screen sizes using media queries and responsive web design.
- Equipped using MySQL for querying and updating the database(relational)
- Identified the root cause of errors and bugs and resolved issues effectively.

Technologies used: HTML, PHP, CSS, JavaScript, MySQL, XAMPP environment, Agile Methodologies, Sublime Text, Git

EDUCATION

Diploma in Computer Programming   **September 2021- April 2023**
Sheridan College, Oakville, ON

- Web Development
- Enterprise Java Development
- Interactive User Design using UI/UX
- Database Implementation (Oracle and MySQL)
- Data communications and Networking

- Operating Systems – Linux, Unix
- Fundamentals of Software Design
- IT Project Management using PMP
- .Net Programming

Diploma in Computer Engineering   **August 2016 - March 2019**
LJ Polytechnic, Ahmedabad, India

- Web Programming
- Mobile-based Applications
- Systems Development Methodologies
- Data Structures and Algorithms -C

- Database Management
- Object Oriented Programming – Java
- .Net Technologies using C#

SKILLS

Languages: C, C++, HTML, CSS, SQL, JavaScript, Python, Java
IDE: Apache NetBeans, Eclipse, IntelliJ
Back-end technologies: Node.js, PHP
Editor: Visual Studio Code, Sublime Text
Databases: MySQL, SQL Server, MongoDB
Software: Microsoft Office Suite, XAMPP, Cisco Packet Tracer
Framework: Spring Boot, .Net
Designing Tools: Figma, Adobe XD, Sketch
Others: GitHub, Microsoft, Ubuntu

CERTIFICATIONS

The Complete 2023 Web Development Bootcamp   **May 2023 - Present**
 Bootstrap 5, jQuery, Deployment with GitHub pages, Heroku and MongoDB Atlas, Node, React, Web3, DApps

Adobe Photoshop   **2020-2022**
Photo editing, Image wrapping tools, Compose raster images, Alpha composing.

ADDITIONAL SKILLS

Adaptability and Dependability, Analytical and Multi-tasking, Problem Solving, Teamwork and Collaboration, Design, Development, and Deployment, Time Management, Verbal and Written Communication, Decision making, Leadership
